

Oiled Mahogany

Our Oiled Mahogany range offers design and quality and is manufactured using responsibly sourced timber. The collection includes our most popular bench designs.

The dense almost knot-free grain of Oiled Mahogany comes with an oiled finish giving it a smooth lustre. Oiled Mahogany timbers are also FSC® 100% certified.

Maintenance

Our Oiled Mahogany has been pre oiled to give the furniture a uniform appearance. If left untreated Oiled Mahogany will firstly darken, then mellow to a silver/grey appearance.

To maintain the finish we recommend applying our Cornis Oil annually to replenish natural oils and retain the reddish-brown colour of the timber.

We recommend checking and tightening fixings regularly. We have a range of furniture covers available to fit your Oiled Mahogany furniture.
