

# White Acacia

If you're after a classic style bench, but you prefer the white, modern, sleek look, you will love our White painted Acacia benches. The slatted back, the rounded arms, the curved arch at the back - they all tick that quintessentially English brief.

It's made from FSC® 100% certified Acacia timber which is finished in fresh white satin polyurethane paint.

## Maintenance

White Painted Acacia furniture is produced by applying a polyurethane paint to the Acacia timber.

After time there may be hairline cracks in the finish, due to the timber moving. Expansion and contraction of timber is normal and is caused by climatic variation, this is more noticeable around the joints. This will not affect it's durability.

New England benches are designed to be used outside, we recommend regular maintenance to retain their original condition. This can be done by sanding the affected area down to the natural timber, then evenly re-applying a white satin polyurethane paint to the area.

Polyurethane paint can be purchased from any DIY or Hardware store. If you are unsure about what paint to use please contact Alexander Rose.
