Best quality and workmanship turns Olymp into one of our most attractive stands. The spruce wood used comes from sustainably cultivated European forests. Olymp is made weather-proof by a dipping bath impregnation and by galvanised fittings. The especially developed chain suspension can be adjusted to fit nearly all AMAZONAS hammocks.

The white, water-based coating of Olymp white is weather-resistant and proof against ultraviolet light; it is also exceptionally long-lasting, and is not prone to chalking.

AMAZONAS uses FSC[™]-certified wood from sustainable European state forests for the manufacture of their products.
